

GEDA SH

GEDA service and industrial elevators for the refining and petrochemical industry

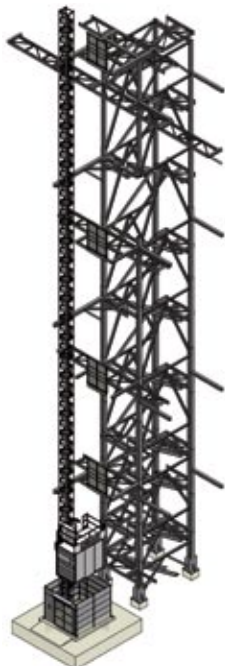

Edition 05/2010/GB

GEDA's state of the art Industrial Rack and Pinion Elevators have been specifically designed for industrial use, including the **refining and petrochemical industry**, where there is a growing need for safe, reliable vertical transportation of personnel and material.

GEDA can offer several elevator options to meet the service requirements and hazardous area classification requirements of the refining and petrochemical industry including: **Crude Distillation Units, Delayed Cokers, Hydrocrackers, Fluid Catalytic Cracking Units (FCC), Hydrotreater, CCR Catalytic Reformer, Polyethylene and LNG Storage Tanks.**

You have the choice between several platform dimensions and capacities ranging from 300 kg – 2700 kg and lifting speeds up to 60 m/min. We can also offer you explosion proof duty elevators designed to meet your needs and application.

GEDA meets industry codes and can be certified to meet ANSI A17.1 and EN-81. GEDA is ISO 9001:2008 complaint and is a member of the German Engineering Federation (VDMA).
